ENGINES CAN HANDLE TONNAGE IN ADDITION TO FIGURES SHOWN ABOVE AS FOLLOWS:

EASTWARD.

10%	additional—	San Mateo to Redwood; Coyote to Perry; Kings City to San Lucas; Nacimiento to Templeton; Santa Barbara to Mason Street.
25%	"	Mayfield to Mountain View; San Jose to Hillsdale; San Ardo to Wunpost; Asuncion to Eaglet; Sacate to Tajiguas.
50%	"	Santa Clara to San Jose; Aromas to Pajaro; Coburn to Kings City; Bromela to Guadalupe.
75%	"	Baden to San Bruno; Chualar to Camphora; Elwood to Goleta.
100%	"	Lawrence to Santa Clara; Sargent to Chittenden; Salinas to Spence; Camphora to Soledad.
150%	"	San Bruno to San Mateo; Chittenden to Aromas; Castroville to Salinas; Spence to Chualar; Arguella to Sudden; Concepcion to San Augustine.
200%	"	San Martin to Sargent; Edna to Oceano.

WESTWARD.

10%	additional—	Tangair to Narlon; Wunpost to San Ardo; Pajaro to Chittenden; Lawrence to Sunnyvale; Redwood to San Mateo.
25%	"	Mason St. to Santa Barbara; Gaviota to Sacate; San Lucas to Kings City; Castroville to Elkhorn; San Martin to Morganhill.
50%	"	Capitan to Tajiguas; Cooper to Castroville; Santa Clara to Lawrence.
75%	"	Goleta to Elwood; Tajiguas to Gaviota; Eaglet to Paso Robles; Gonzales to Chualar; Morganhill to Perry.
100%	"	Paso Robles to San Miguel; Bradley to Wunpost; Coburn to Metz; Elkhorn to Pajaro; Chittenden to Sargent.
125%	"	Mountain View to Mayfield; Menlo Park to Redwood.
150%	"	Soledad to Gonzales; Chualar to Salinas; Sunnyvale to Mountain View.
200%	"	Guadalupe to Bromela; Coyote to Santa Clara; Narlon to Casmalia; Waldorf to Guadalupe; Ocean View to San Francisco.

BETWEEN THE FOLLOWING POINTS A FULL TRAIN OF 55 CARS CAN BE HANDLED.

EASTWARD—Ocean View to Baden; Palo Alto to Mayfield; Sunnyvale to Lawrence; Morganhill to San Martin; Tunnel 1 to S.L.Obispo. WESTWARD—Tunnel 1 to Eaglet; Kings City to Coburn; Salinas to Cooper; Perry to Coyote.

Between other points figures in Chart will govern.

Eastward.

Westward trains are superior to trains of the same class in the opposite direction. See Rule 72 and D 72.

Riverside is a flag stop for all first-class trains on Boulder Creek Branch.

Trains must obtain clearance cards before leaving New Almaden and Boulder Creek, when operator is on duty.

REGISTERING STATIONS:
Boulder Creek, Felton, Campbell and New Almaden

SPECIAL RULES.

1. Bulletin Boards are located at San Francisco, San Jose, Gilroy, Pajaro, Salinas, San Luis Obispo, Surf and Santa Barbara, Wright and Santa Cruz.

2. Westward extras, and trains on the Tres Pinos Branch will register at Carnadero. At registering stations which are day and night telegraph stations and which are not regular stops, first-class trains need not stop to register, or to check the register, or to make out check of train register form 2529, but will throw off a register ticket form 2588 to the operator giving the information required by the register, reducing speed if necessary, and the operator will then register for them. Conductors and operators will comply with Rule 96 at registering stations where trains are not required to register, the same as at non-registering stations, the operator notifying all opposing trains which are of the same or inferior class to the train taking down signals. Trains going via S. P. C. Co. to and from Santa Clara and Western Division trains will register at Santa Clara. Trains 62 and 190 will register at Carnadero.

3. Standard clocks are located in the Dispatcher's office San Francisco, Yard Master's office San Francisco, Machine Shops 16th St. San Francisco, Telegraph office San Jose, Gilroy, Tres Pinos, Pajaro, Santa Cruz, Castroville, Pacific Grove, Salinas, Santa Margarita, Dispatcher's office San Luis Obispo, Telegraph office Surf, Lompoc, Santa Barbara, and Boulder Creek.

4. In addition to stations at which a train originates on the Division, Salinas and San Luis Obispo are initial stations for all except first class trains.

5. San Francisco yard limits extend from Third St. station to Randall St. crossing.

Monterey yard limits from Monterey station to Del Monte station.

Pajaro-Watsonville yard limits from 1,000 feet east of east switch to 1,000 feet west of west switch Pajaro and to 1,000 feet east of P. V. R. R. crossing east of Watsonville.

South San Francisco yard limits from west switch, South San Francisco, to and including "Y" switch leading to Tanforan.

Salinas yard limits, from Salinas to Spreckels.

San Jose yard limits, from Santa Clara to Valbrick on the standard gauge line, and from Santa Clara to Dougherty on S. P. C. line.

Santa Cruz yard limits from just east of San Lorenzo bridge on Pajaro-Santa Cruz line to 300 feet west of Eblis siding on S P. C. line and to 1,000 feet east of east switch of Orby on Davenport-Santa Cruz line.

Trains must reduce speed to 15 miles per hour between San Jose Passenger Depot and the west end of Guadalupe River trestle. Eastward trains must get a signal to "Proceed" from the switch tender at switch to old main line (or roundhouse track) before fouling said junction switch. As Guadalupe River trestle is not provided with sidewalk, care should be taken to avoid stopping passenger trains thereon.

c. Double track extends from 3d & Townsend St. Station to 18th St., San Francisco, from Ocean View to Holy Cross and from San Bruno to San Jose. All trains will run to the right between these points. The switches at the end of double track at 18th St., San Francisco, Ocean View and Holy Cross will be handled by switch tenders, but trains must approach them carefully, speed not exceeding 8 miles per hour. In the absence of the switch tenders, trainmen will handle switches, which must be left set for eastward main track at 18th St., San Francisco and Holy Cross, and for the westward main track at Ocean View. Conductors of all trains must throw off form 2588 properly filled out at switch tender's house at 18th St., San Francisco., and Holy Cross. Engineers approaching San Bruno and Baden must sound 1 short, 1 long, 1 short — ——— — blast of the whistle if they wish switch lined up for track via Tanforan, and 2 short, 1 long, 2 short — — ——— — — blasts of the whistle if they wish switch lined up for track via South San Francisco. Trains approaching San Bruno from South San Francisco must sound 1 short, 1 long and 2 short — ——— — — blasts of the whistle if they wish switches lined up for the eastward main line.

d. The top blade on double arm pole west of the Signal Tower at San Bruno, on the Tanforan track, will govern the movements of the eastward trains straight through on eastward track. The lower blade on the same pole will govern the movements of eastward trains in crossing over to westward track or on to spur track.

The top blade on double arm pole west of the signal Tower, on the South San Francisco track, will govern the movements of eastward trains straight through on eastward track. The lower blade on the same pole will govern the movement of trains on to westward track or spur track.

The top blade on the double arm pole east of the Signal Tower, will govern the movements of westward trains via Tanforan. The lower blade on the same pole will govern the movements of westward trains via South San Francisco.

Trains entering and leaving east end of San Jose yard will be governed by semaphore signals from interlocking tower. Engineers of westward freight trains must sound 1 long 1 short ——— — blast of steam whistle approaching interlocking tower at east end of San Jose yard, so switches may be lined up for freight yards.

6. Sidings on double track are located at Millbrae, San Mateo, San Carlos, Fair Oaks, Mayfield, Mountain View and Lawrence. Cross-overs at San Bruno, Burlingame, Belmont, Redwood, Menlo Park, Palo Alto, Castro, Sunnyvale and Santa Clara. When using cross-overs, trainmen must comply strictly with Rule 99. Street crossings at San Mateo must not be blocked to exceed five (5) minutes.

7. Block System limits are between Bryant St., San Francisco, and Irma.

a. If an automatic signal is at "stop" before a train enters the block, or if it indicates "proceed" and does not change to "stop" when a train enters the block, the train must stop, and on single track send a flagman in advance, immediately; wait five minutes after the flagman has started, and then proceed under full control, not exceeding six miles per hour, as prescribed by Rule 504. On double track a train may proceed after waiting one minute running under control, flagman being invariably sent ahead in stormy or foggy weather.

On single track between San Francisco and San Bruno, trains arriving at stations where they expect to meet and pass other trains must not occupy the main track between switches until the expected train has passed the signal at opposite end of the adjoining block unless the opposing train has lost both rights and class, as prescribed by Rule 82 or at the expiration of a time order; otherwise the train standing in the overlap will hold in delay approaching trains.

b. Inside block signal limits east of San Jose, westward trains arriving at stations where they expect to meet and pass other trains may occupy the entire main track inside of station yards without holding signals other than home signal at the end of yard, and its distant signal 2,000 feet in advance, against opposing trains. Switch may be opened to head eastward trains on to passing track. This rule also applies to eastward trains intending to hold the main line at stations where there is no overlap.

Eastward trains arriving at stations where there is an overlap, expecting to meet and pass other trains and intending to hold the main line, should be careful that no portion of the train stands east of post marking end of overlap of adjoining block.

Overlap posts are painted white from the top down 4 feet, and black at base, and indicate end of overlap at Hillsdale, Madrone, Sargent, Aromas, and Grover. Switches at these stations must not be opened to head westward trains on to passing track until same have passed signal at east end of adjoining block.

At all points where block signals are in service, both ends of cross-over links connecting two main lines or connecting main line and siding, must, after being used, be left lined up for the straight track. With either switch set for the cross-over, signals will stand at danger. This does not apply where a link cross-over in the middle of a long siding is used as the end of a passing track. Where side tracks lead directly into main line, derails must be left open after being used, otherwise signals will stand at danger, delaying trains.

8. On double track, trains must not under any circumstances, pass between a station and a train on the opposite track receiving or discharging passengers; and when on the opposite track fartherest from the station, may only pass a train at very slow speed and with great caution when a train is receiving or discharging passengers. Engineers should use good judgment and reduce speed far enough back so as to avoid a dead stop when they see that another train is about to take the station. Trains which do not stop at the station should be given preference. In case of two trains, both of which are scheduled to stop, westward train should have preference.

9. Switch at Baden will be handled by switch-tender between the hours of 7 a. m. and 7 p. m. Trains must approach this point carefully, speed not exceeding 8 miles per hour. Engineers of westward trains approaching Baden via South San Francisco must note the indication of disc signal before switch is opened and be governed accordingly, as the signal will stand at "stop" with switch open. Between 7 p. m and 7 a. m., or in the absence of switch-tender, trainmen must handle switches, which must be left set for track via Tanforan.

a. Trains for which time is shown at Tanforan will proceed via Tanforan. Trains for which time is shown at South San Francisco will proceed via South San Francisco. Eastward trains via Tanforan, scheduled to meet westward trains via South San Francisco, at Baden, may leave Baden without awaiting arrival of westward trains, but must not leave San Jose until they have ascertained that the train has passed onto double track at that point. Eastward trains via South San Francisco, scheduled to meet westward trains via Tanforan at Baden, may leave Baden without awaiting arrival of westward train, but must not leave San Jose until they have ascertained that the train has passed onto double track at that point.

b. The switch at the junction of the standard and narrow gauge lines near New Almaden must be left set for the narrow gauge line. On joint track between this junction and New Almaden station both narrow gauge and standard gauge trains are equal, and they must move under control.

c. S. P. Co. trains and San Jose, Los Gatos & Interurban Ry. Co. cars will use S. P. Co. tracks from the junction between Campbell and L. G. & S. J. road to L. G. & S. J. road jointly. S. P. Co. trains 805 and 806 have right over San Jose, Los Gatos & Interurban Ry. Co. cars on joint track, but must come to a stop before going on joint track and not exceed a speed of ten miles an hour over joint track. All other S. P. Co. trains must first come to a stop before going on joint track and send a flagman in advance immediately, wait five minutes after the flagman has started and then proceed under control at a speed not exceeding six miles per hour until the train has passed off joint track, taking particular care not to close down on the flagman ahead until he has reached the end of joint track. All such other S. P. Co. trains must be protected to the rear as per Rule 99.

SPEED OF TRAINS.

10. Trains must not exceed a speed of fifteen (15) miles per hour, equivalent to a minimum time of nine minutes thirty-six seconds, between Third St. station, San Francisco, and Valencia St.; nor a speed of thirty (30) miles per hour, equivalent to a minimum time of seven minutes twelve seconds, between Valencia St. and Ocean View in either direction. Trains must not exceed a speed of ten (10) miles per hour through Redwood, San Mateo and Gilroy, eight (8) miles per hour through San Jose and Salinas, and six (6) miles per hour through Hollister.

a. Trains must reduce speed to Ten Miles per hour in territory covered by slow boards, located as follows:

BETWEEN LAGUNA AND ELLICOTT:	West board, 3,400 feet west of mile post 106. East board, 6,000 feet east of mile post 106.
S. P. CO. LINE TUNNEL No. 1:	West board, 1,000 feet west of Tunnel No. 1. East board, 1,000 feet east of Tunnel No. 1.

And must reduce speed to Twenty-five Miles per hour at—

BETWEEN HOFFMAN AVE. AND PACIFIC GROVE.	West board at old Chinatown site. East board just west of Pacific Grove Yard.
ROCKY POINT:	West board, 450 feet east of mile post 155. East board, 2,000 feet west of mile post 157.
NEAR BRADLEY:	West board, ½ mile east of mile post 193. East board, 1,200 feet west of mile post 195.
BETWEEN EDNA AND GROVER:	West board, ¼ mile east of mile post 261. East board, 600 feet west of mile post 263.

And must reduce speed to Fifteen Miles per hour at—

ELKHORN:	West board, ½ mile east of mile post 102. East board, ¾ mile west of mile post 107.
SACATE;	West board, at mile post 336. East board, at mile post 337.
ORELLA:	West board, mile post 348. East board, mile post 349.

With the exceptions noted above, trains must not exceed the speed in miles per hour as shown below:

	PASSENGER	FREIGHT
San Francisco–Baden	45	20
Baden–San Jose (via Tanforan)	60	30
Baden—San Bruno (via South San Francisco)	25	15
San Jose—Santa Margarita	40	25
Santa Margarita–San Luis Obispo	30	18
San Luis Obispo–Santa Barbara	45	25
Hillsdale–New Almaden	25	15
Carnadero–Tres Pinos	30	20
Pajaro–Santa Cruz	30	20
Castroville–Pacific Grove	40	20
Surf–Lompoc	25	15
Wright–San Jose	25	15
Laurel–Felton	25	15
Boulder Creek–Santa Cruz	20	15
Campbell–New Almaden	25	18

b. Trains must not exceed a speed of 25 miles per hour approaching and passing over very sharp curves, such as those at South San Francisco. Carnadero, and similar curves on the Monterey and Santa Cruz Branches and in the Salinas Valley.

Before descending mountain grades, Conductors must see that handles of Retaining-Pressure Valve are turned up on all cars, except mail and express cars without end doors. Watch the wheels closely to prevent heating or sliding. At foot of grade the handles of all Retaining Pressure Valves must be turned down. On all passenger trains at all station stops, descending mountain grades, brakemen must turn down the Retaining-Pressure Valve as soon as station stop is made, leaving them turned down until after brakes are released and train started, when they must again be turned up. At water tanks the retainers must not be turned down until engine-men have taken water.

11. Siding for Valencia Street is the siding between Guerrero and Dolores Streets, Channel Street siding is between Sixth and Ninth Streets.

12. During the existence of this time table, the engine and crew of train No. 272 may use main track between Pacific Grove and Lake Majella between the honrs 10:00 A. M. and 12:30 P. M. for switching, and other trains must not use this track between these times except under protection as required by Rule 99.

SPECIAL RULES—Continued.

13. Work on the Loma Prieta Branch will be done by crew of 265 and 268.

14. Head lights of all engines and marker lights of all trains must be kept burning while passing through tunnels between Cuesta and Goldtree and between Santa Cruz and Wright.

15. Engineers approaching Santa Clara interlocking tower must sound 1 short, 1 long, 1 short — ——— — blast of the whistle if they wish switches lined up for Coast Division main track, 2 short, 1 long, 2 short — — ——— — — blasts of the whistle if they wish switches lined up for crossover on old S. P. C. Co. main line 2 short, and 1 long and 1 short — — ——— — if they wish switches lined up between Western Division track and Coast Division main line.

16. In case of delay, all main-line trains will wait at Felton thirty minutes for connecting trains on Boulder Creek Branch.

17. Switches at Felton must be left set so as to make the line between Boulder Creek and Santa Cruz the continuous main line.

18. Before running around the "Y" at Pajaro, trains and engines should be protected by a flagman as per Rule 99. Engineers will be held equally responsible with trainmen for violation of this rule.

19. Engines on freight trains of twenty cars or over must cut off in all cases before taking water.

SIGNS AND CHARACTERS.

The following signs when placed before the figures of the schedule indicate:

s—regular stop.
f—flag stop to receive or discharge passengers or freight.
*—Trains will stop to discharge passengers only.
†—Stop on signal to receive passengers only.

DN—day and night telegraph office.
D—day telegraph office.
N—night telegraph office.
W—water station.
P—Telephone and Telegraphone office.
I—Interlocking plant

F—fuel station.
T—turntable.
Y—wye.
O—track scales.
¶—dining station.

Extra trains may pass, or run ahead of, third class trains without receiving an order to do so.

FLAGGING DISTANCES.

Attention is called to the fact that information shown in vertical columns on the face of previous time tables denoting "Danger," and "Caution" points in flagging distances as per Section A, Rule 99, has been eliminated on this Time Table.

Twenty-five telegraph poles will be considered "Danger" point and 35 telegraph poles "Caution" point from where the track is obstructed, except when flagging on descending grades, obscure or crooked track, or in foggy or stormy weather, when danger point will be 30 telegraph poles, and "Caution" point 40 telegraph poles from where the track is obstructed.

These distances must be strictly observed.

OFFICE HOURS AT TRAIN ORDER OFFICES THAT ARE NOT OPEN ENTIRE 24 HOURS, AS FOLLOWS:

San Mateo	6:45 A. M. to 7:30 P M.
Santa Clara	6:40 A. M. to 7:15 P. M.
Hillsdale	7:00 A. M. to 7:00 P. M.
